ABOUT TRAFFICKCAM

TraffickCam allows any traveler with a smartphone to help fight sex trafficking by uploading photos of their hotel room to an enormous, constantly updated database of hotel room images. Federal, state and local law enforcement securely submit photos of trafficking victims posed in hotel rooms to TraffickCam.

TraffickCam was developed by the social action organization Exchange Initiative and researchers at Washington University. The app is available for iPhone and iPad at the App Store (bit.ly/TraffickCamApp) and for Android devices at Google Play (bit.ly/TraffickCamAndroid). Exchange Initiative provides resources, information and networking solutions to combat sex trafficking in the U.S.
